# Contacting Anti Drug & Smuggling Unit (ADSU)

# Action Plan 2015 - 2016

Quality Service with Pride and Care

## Foreword

I am pleased to present the Action Plan of the Anti Drug and Smuggling Unit (ADSU) for 2015-2016. The ADSU is operational 24/7 in all Police Divisions and Entry Points, i.e. Airport, Port and in Rodrigues. The Anti Piracy Unit and Brigade des Jeux also fall under the command of DCP ADSU.

This Plan sets forth the strategy that will be used by ADSU to combat the proliferation of illicit drugs in mainland Mauritius and outer islands. In our fight against this scourge, we will actively engage the community and other relevant stakeholders. We are more than ever determined to eradicate drugs by dismantling drug trafficking networks. We are working in close collaboration with the Asset Recovery Unit to further our actions against those who are engaged in suspicious transactions.

Besides our enforcement role, we will also lay emphasis on drug awareness campaigns. This year, we intend to reach more educational institutions with a view to sensitising our youngsters on the ill-effects of drugs and other social problems associated to them.

We are fully conscious of the proliferating abuse of synthetic drugs among youngsters. We have already mobilised our resources to address this serious concern. We can only achieve our objectives set out in this plan with the support of the community. We will therefore work in close partnership with all with a view to making Mauritius a drug-free country.
