Action Plan

2015 - 2016

Quality Service with Pride and Care

Foreword

I am pleased to present the Action Plan for Port Police for the year 2015-2016. Security in the Port area is of utmost importance. Our fundamental goal consists of creating a conducive and secure environment for Port users and various stakeholders operating within the Port Area. As you are aware, 99% of our country's economy activity transits through the Port Area. Therefore, the Port Area, all cargo handling activities and services so provided need to be secured through an effective and efficient policing. To that end amongst others, we will do our best to prevent unauthorized access of persons and vehicles in the Port Area. We will also police to render Port Louis/ Caudan Waterfront safer for our visitors.

This plan sets out how Port Police will focus its priorities during the year 2015 in order to make the best use of our available resources. These priorities have been set out after consultation within the force, with the stakeholders and Ministries/Departments. To attain our objective successfully, we will enormously value the contribution of Port Users and we believe that the collaboration and information sharing among stakeholders are the way forward. Our proactive strategy as well as community partnership remains one of the best way to maintain and strengthen the relationship between the Police and various stakeholders in the Port Area to promote Port Louis harbour as a safe destination in the region and to enhance economic development of the Republic of Mauritius. We will strive hard towards making the Port Area an effective service provider and a safe destination.

Officer-in-Charge
Port Police
