National Coast Guard

ANNUAL OPERATIONAL

PLAN 2021

'Together, for a Safer Community'

Foreword

I am pleased to present the Annual Operational Plan 2021 for the National Coast Guard. It is principally aligned to cater for the new challenges and opportunities in line with the strategic objectives of the MPF.

The impetus which is being accorded to the growth of Blue Economy necessitates the NCG to transform into a more proficient arm to address maritime safety & security issues. To mitigate these contemporary challenges, the NCG is augmenting its capacity with infrastructure projects like Trident and concurrently focusing on procurement of new assets such as High Speed Boats, Passenger Dornier and CSRS to enable stepping up the overall surveillance effort.

The NCG has been extensively engaging with regional partners for reducing sea-blindness and improving the Maritime Domain Awareness (MDA) in a quest to contribute to the collective cause of reducing illicit activities in the region. Additionally, the new Maritime Intelligence Cell with a dedicated Hot Line 177 is NCG's initiative to involve the public into law enforcement by sharing information about illegal activities.

The threat of a pandemic still lurks around, but the NCG is resolute to dedicate itself to meet all challenges and shine as the sword arm of the MPF.
