

## MAURITIUS POLICE FORCE

# STRATEGIC PLAN 2026 - 2028

# Foreword

As the Mauritius Police Force looks ahead to the period 2026 - 2028, it does so with a clear sense of purpose, responsibility and resolve. This Strategic Policing Plan articulates our vision and direction for strengthening public safety, enhancing operational effectiveness and reinforcing the trust and confidence of the communities we serve.

Policing today operates within an increasingly complex and dynamic environment. Rapid technological advancement, evolving crime patterns and rising public expectations continue to redefine the demands placed upon modern law enforcement. In this context, the Mauritius Police Force remains firmly committed to adapting its strategies, capabilities and culture to meet present and future challenges while upholding the rule of law and democratic values.

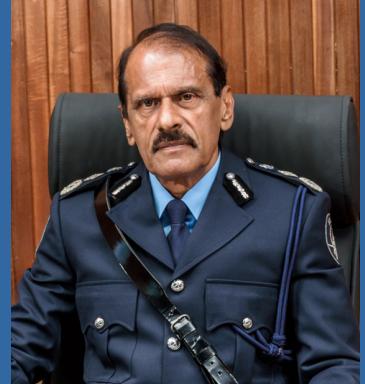

The Strategic Policing Plan 2026–2028 provides a structured and forward-looking roadmap to guide organisational priorities and actions. It aligns with our national development objectives, international best practices and the legitimate expectations of the Mauritian public. Through this Plan, the Force seeks to strengthen crime prevention, improve service delivery, leverage technology and enhance partnerships with communities, institutions and other stakeholders.

At the core of this strategy lies an unwavering commitment to professionalism, integrity and accountability. Effective policing depends fundamentally on public trust and the Force recognises that such trust must be continuously earned through transparent, inclusive and respectful engagement. Building and sustaining strong relationships with communities is therefore a central pillar of this Plan and a prerequisite for long-term public safety and social resilience.

The successful implementation of this Strategic Plan will require collective effort. While the dedication and professionalism of police officers and staff remain essential, meaningful collaboration with communities and partners are equally vital. Together, we can foster safer neighbourhoods, strengthen social cohesion and build a more resilient nation.

As we move forward, the Mauritius Police Force will remain steadfast in its duty, guided by its values and open to innovation. With unity of purpose and disciplined execution, we will shape the future of policing in Mauritius and continue to serve the nation with honour.

In a nutshell, this Strategic Policing Plan represents our strategic vision for 2026- 2028: a Police service that is projected to be effective, inclusive and trusted by the communities.

## Conclusion

The successful implementation of the Mauritius Police Force Strategic Plan 2026 – 2028 will depend on a clear focus on priorities, strong leadership and sustained collaboration with stakeholders. Achieving the objectives set out in this Plan requires well-defined goals, effective coordination across the organisation and meaningful engagement with communities, partners and institutions at all levels.

In an ever-evolving policing landscape marked by rapid social, technological and criminal developments, the Force must remain agile and forward-looking. Data-driven decision-making, supported by reliable intelligence and performance monitoring, will be essential to enhancing operational effectiveness and ensuring resources are deployed where they are most needed. Equally important is the continuous assessment of both internal capabilities and external trends to enable timely adaptation to emerging challenges.

The Mauritius Police Force has to strengthen its public confidence and deliver policing services that are responsive, inclusive and sustainable by fostering a culture of learning, innovation and professionalism.

Through commitment, adaptability and partnership, this Strategic Plan provides a solid foundation for building a safer and more resilient Mauritius, while ensuring the Police Force remains effective, relevant and trusted in the years ahead.
